Give people the option to plug in, download
and listen anywhere any time

Let's face it... we all wish we could be in two places at once! Give your audience the opportunity revisit presentations on their way home, in the bath or at the gym!

Instead of handing out notes at your next conference get people to visit your website and download the presentation to their laptop, desktop, PDA or iPod.

It's the easiest, most cost effective way to add value to your product and sends a clear message that you're not stuck in the technological dark ages!
